

MAKOPALA UNIVERSITAS BUDI LUHUR ORIENTEERING CHAMPIONSHIP
BULLETIN 2 ENGLISH VERSION

Welcome to Indonesia and MUBLOC VI

With deep gratitude, I welcome all participants of the MAKOPALA Universitas Budi Luhur Orienteering Championship (MUBLOC) VI 2026 World Ranking Event.

It is our honor to welcome orienteering athletes from various regions and countries to gather and compete in Indonesia. On behalf of the entire organizing committee, I would like to thank you for the enthusiasm and support that have made this championship possible.

MUBLOC VI 2026 is not only a competition, but also an opportunity to share experiences, build friendships, and enjoy the orienteering races we have prepared. We hope every participant has a memorable experience, both inside and outside the competition arena.

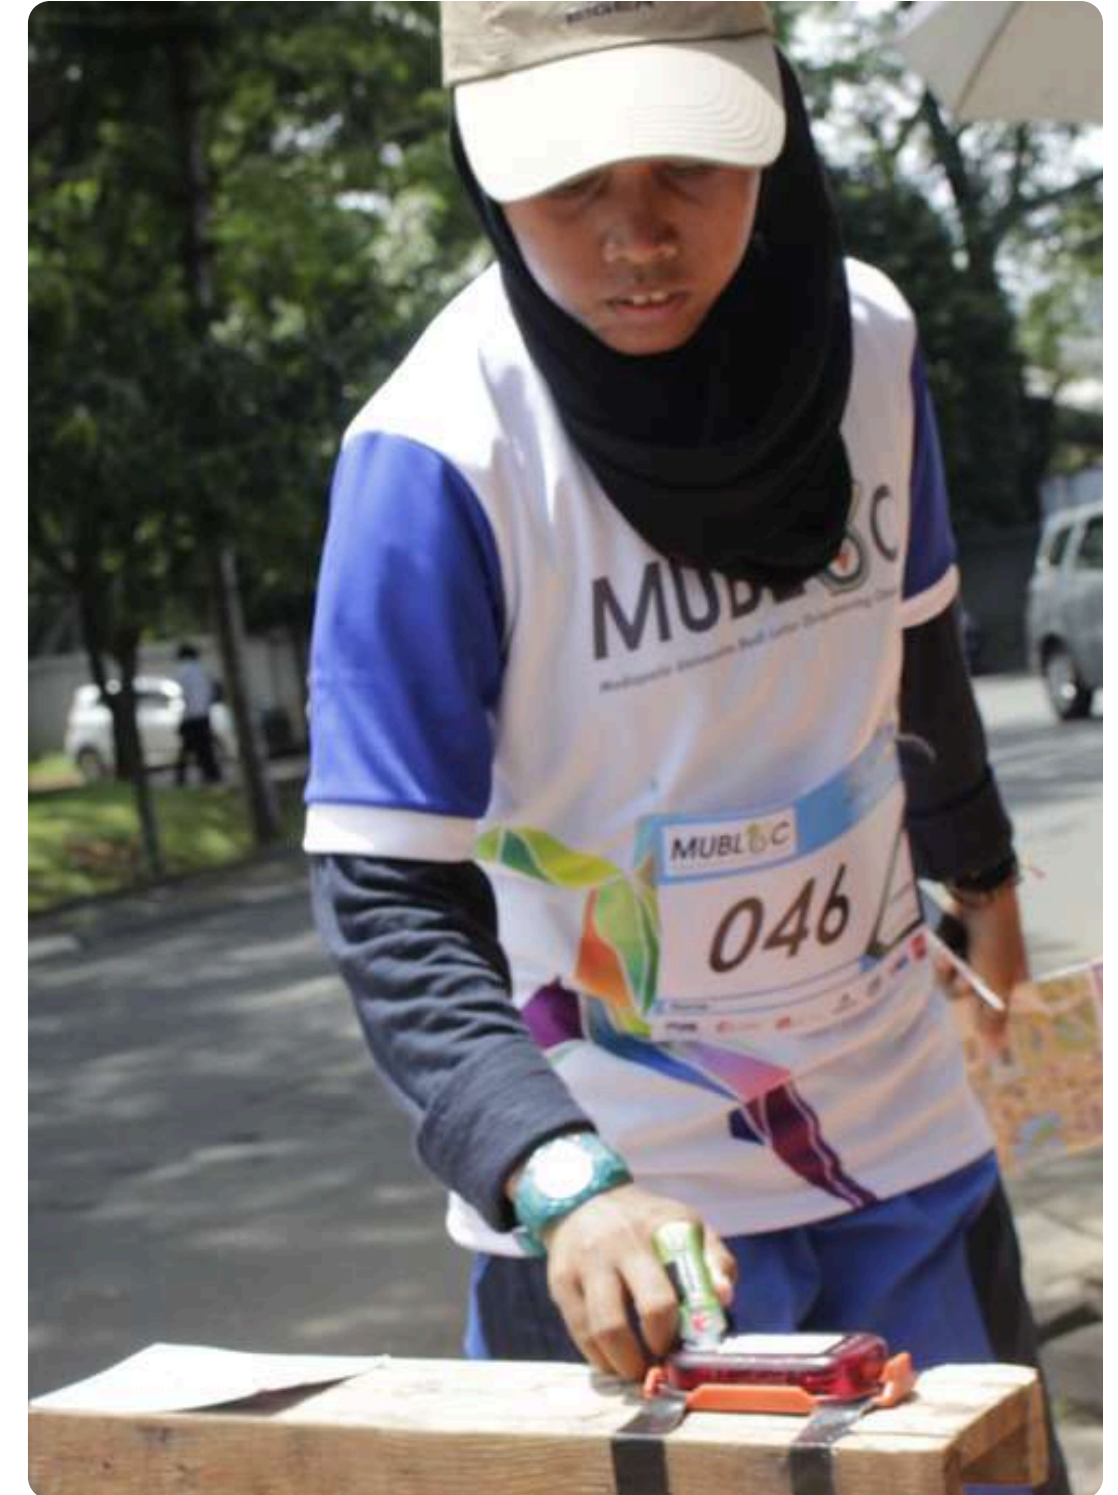

We also hope participants enjoy the beauty of Indonesia and get to know the diversity of our culture.

Thank you for being part of MUBLOC VI 2026. May this championship bring competitive races, enjoyable experiences, and unforgettable memories.

Welcome to Indonesia, and best of luck in the competition.

Siti Aisyah Ranukumbolo
Event Director

MUBLOC VI 2026 – World Ranking Event

What is **MUBLOC**

The MAKOPALA Universitas Budi Luhur Orienteering Championship (MUBLOC) Series VI is an orienteering competition organized for the sixth time by MAKOPALA Universitas Budi Luhur, a student activity unit and one of the pioneers of orienteering competitions in Indonesia. MUBLOC VI carries the theme: Eco Trail Challenge: Orienteering for preservation, sustainability and sport tourism. It aims to introduce orienteering as a competitive sport while preserving the environment and promoting tourism in West Java and DKI Jakarta internationally through orienteering.

Event Information

Discipline and competition type

MUBLOC VI is an orienteering competition in the foot orienteering discipline. Participants may only walk, jog, and run during the competition. Motor vehicles, bicycles, electric bicycles, electric motorcycles, roller skates, skateboards, horses, rickshaws, and similar modes of transport are not permitted and may not be used by participants during the competition.

Competition map

Sprint distance

Scale 1:4000 (new map)

Contour interval 2 meters

Competition map produced according to ISSprOM 2019-2

Middle distance

Scale 1:10,000 (old 2016 map, updated in 2026)

Contour interval 5 meters

Competition map produced according to ISOM 2017

Estimated winning time

Sprint distance : 12-15 Minute

Middle distance : 30-35 Minute

Event Information

Punching and timing system

The timing system will use SPORTident for the Sprint and Middle distance. Sportident SIAC will not be activated for the MUBLOC VI 2026 event. Participants who have a dibber may inform the committee of their SiCard ID and enter it on our website.

Clothing and footwear

There are no specific clothing regulations during the competition. Participants may wear clothing that is comfortable for movement. For the middle distance, trail-running shoes with strong grip are highly recommended. Orienteering shoes with metal studs are not permitted inside the Event Center. Road-running shoes are recommended for the sprint distance; orienteering shoes with metal studs are not permitted.

Water station

A water station is available only for the middle distance category. For the sprint distance category, the committee provides water only in the finish and quarantine areas.

Event Information

Insurance

Each participant is expected to bring insurance/BPJS when taking part in this event. Participants are responsible for their own insurance coverage (illness and accidents).

Visa

For information on visa requirements, please visit <https://www.imigrasi.go.id/>

- **Terrain Characteristics of Cibodas Botanical Garden**

Relief

The terrain consists of mountainous hills with gentle to moderate slopes, interspersed with some steeper areas. There is a good network of roads and paths as well as clear terrain details for navigation. The garden is approximately 1.300 - 1.425 meters above sea level. often offering a cooler temperature as compared to Jakarta

Vegetation

A combination of open areas, botanical gardens, and mountain forest with generally good visibility. Some sections have denser undergrowth of ferns and shrubs.

Runnability

Generally good to very good. High running speed can be achieved in open areas and paths, while some forest sections with denser vegetation or steeper slopes have moderate runnability.

Technical Information

**deep ditches mapped as
seasonal watercourses (306)**

- Deep ditches are mapped as “seasonal watercourses” (306).
- There are several rocky areas at this location. However, only boulders higher than 1 meter will be mapped. The “Boulder field” category (208) will be used for areas with scattered boulders less than 1 meter high.
- Monkeys may be found in some parts of the area. Do not disturb or frighten them if you see them, and continue calmly.
- This botanical garden is a popular picnic destination for local residents. Please respect other park visitors.
- Vehicle traffic, such as golf carts, operates within the garden area.

Special symbols used:

fallen tree mapped as
prominent vegetation symbol
(419)

X

Beware of trash bins shaped
like tree roots! These trash
bins are not shown on the
map.

Pavilion
Prominent man-made feature
– ring O (530)

Finish Procedure:
The finish point is located in
front of the Event Center.
After punching at the finish
unit, please proceed
immediately to the SI
download station at the
Event Center entrance.

Event Information - Sprint Distance

Event Center Access Information

- Participants must enter through the Budi Luhur University Main Gate (6.2363°S, 106.7473°E) and proceed to the Budi Luhur University Main Field at 07:00 WIB.
- Upon entering the area, participants must show the barcode from the MUBLOC website to the committee at the main gate. the barcode is also available in number bib

Parking Information

Parking Area

Participants' vehicles may be parked inside the campus:

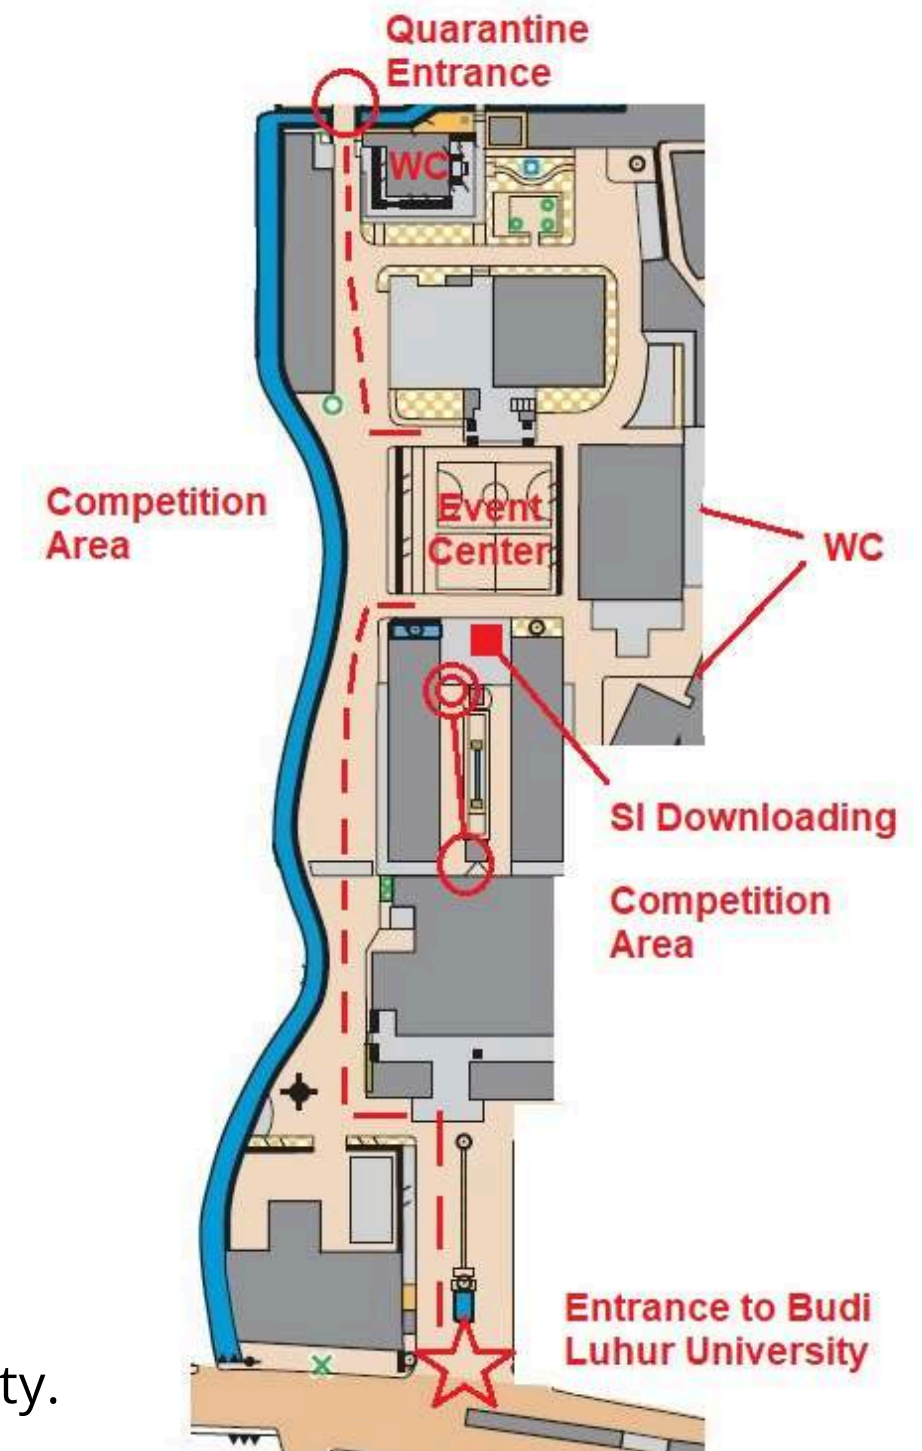

- Front parking
- Rear parking

Parking Fees

Motorcycle: Rp2,000

Car: Rp3,000

The fee can be paid at the main gate to the security guard on duty.

The start interval for all classes is set at 1 minute

Time limit is 60 minutes

Course	Length (m)	Climb (m)	Controls	Winning Time
M21E	3200m	24m	19	12-15 mins
W21E	3000m	24m	17	
M20	2900m	24m	19	
W20	2500m	14m	15	
M21N	2500m	14m	14	
W21N	2100m	12m	14	

Quarantine/Start Procedure:

From the Event Center to the quarantine area: 200 m with directional signs, a 5-minute walk.

Participants must arrive at the quarantine area before 07.45.

Participants must arrive at the start point 3 minutes before their start time.

Bib number, SI card, and compass will be checked at the start point.

Start layout: same as the middle distance.

The start interval for all classes is 1 minute and the race time limit is 60 minutes.

Event Location - Sprint Distance

Jl. Ciledug Raya, RT.10/RW.2, Petukangan Utara, Kec.
Pesanggrahan, Kota Jakarta Selatan, Daerah Khusus Ibukota
Jakarta
GPS : 6.2362444°S 106.7473639°E

- **Terrain Characteristics of Budi Luhur University**

The sprint distance location is around Budi Luhur University and its surrounding area. The terrain consists of residential areas, academic buildings, asphalt roads, and pedestrian paths with narrow alleys throughout the area.

The competition location is approximately 20–28 meters above sea level in a tropical climate.

Runnability is generally very good; runners should take care when running through narrow alleys and sharp turns. Roads consist of local streets and narrow alleys, approximately 2–5 meters wide, paved or concrete, and mainly providing access to residential areas. Traffic is dominated by motorcycles and residents' private vehicles, traveling at relatively low speeds of 10–25 km/h. Nevertheless, runners should be mindful of local traffic.

Technical Information

Some alleys in the residential area are less than 2 meters wide. Participants are expected to reduce their speed and avoid collisions with participants coming from the opposite direction.

Traffic within the residential area is expected to be light in the morning. Nevertheless, participants must remain alert, especially for motorcycles.

Mapping of courtyards with fences or walls

Residential buildings: generalized as buildings (521)

Finish Procedure

The finish point is located at the event center. After punching at the finish unit, please proceed immediately to the SI data download station.

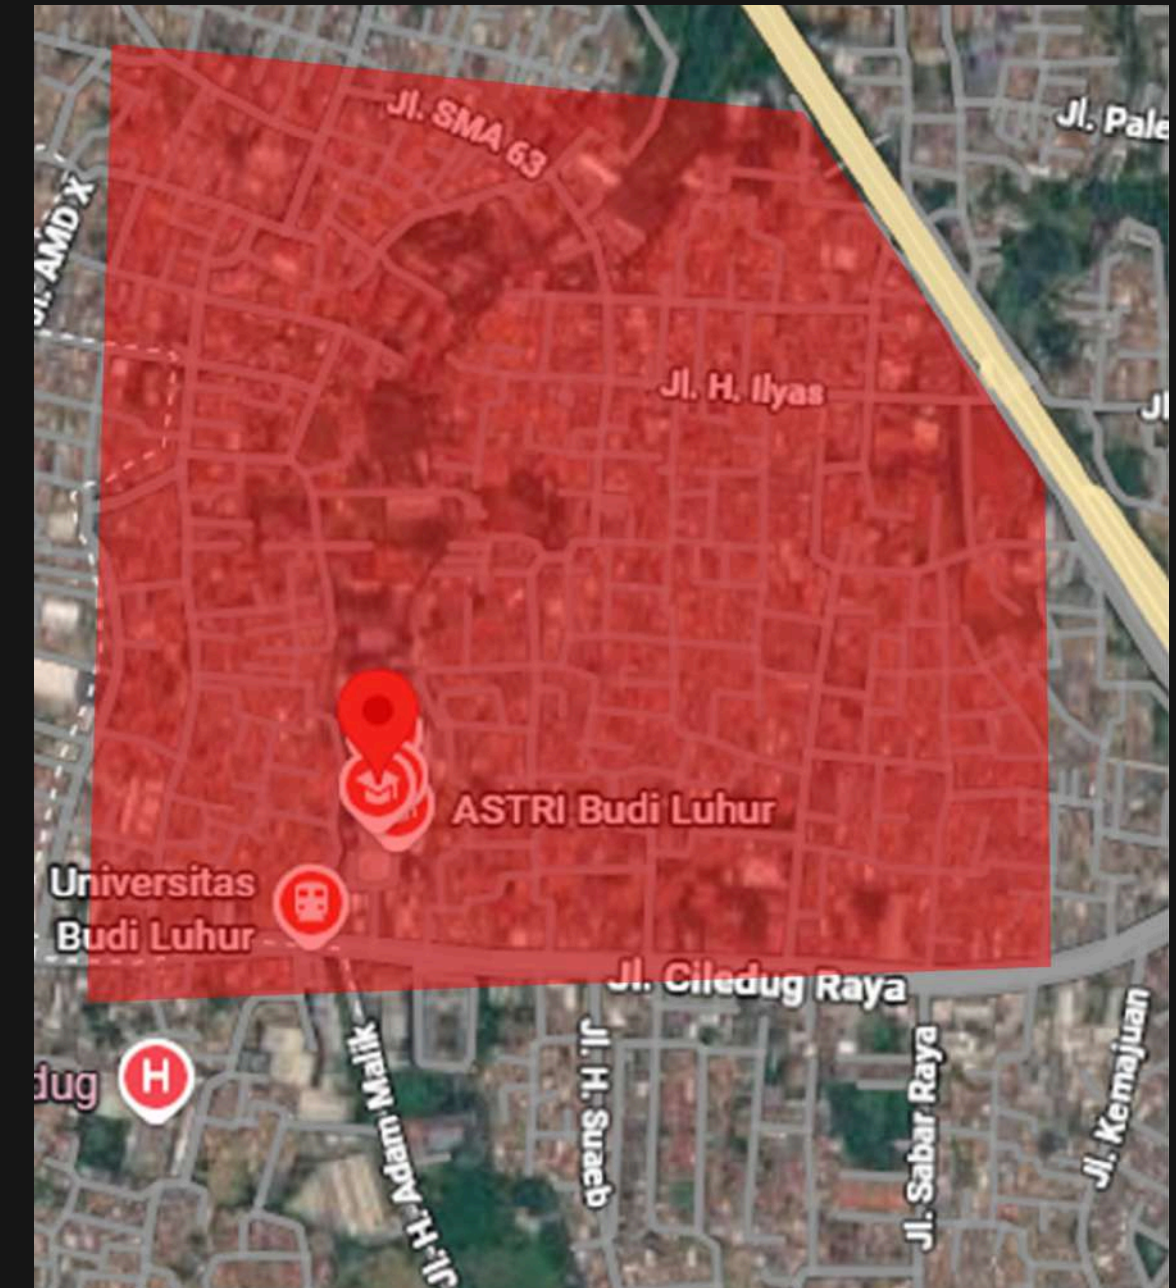

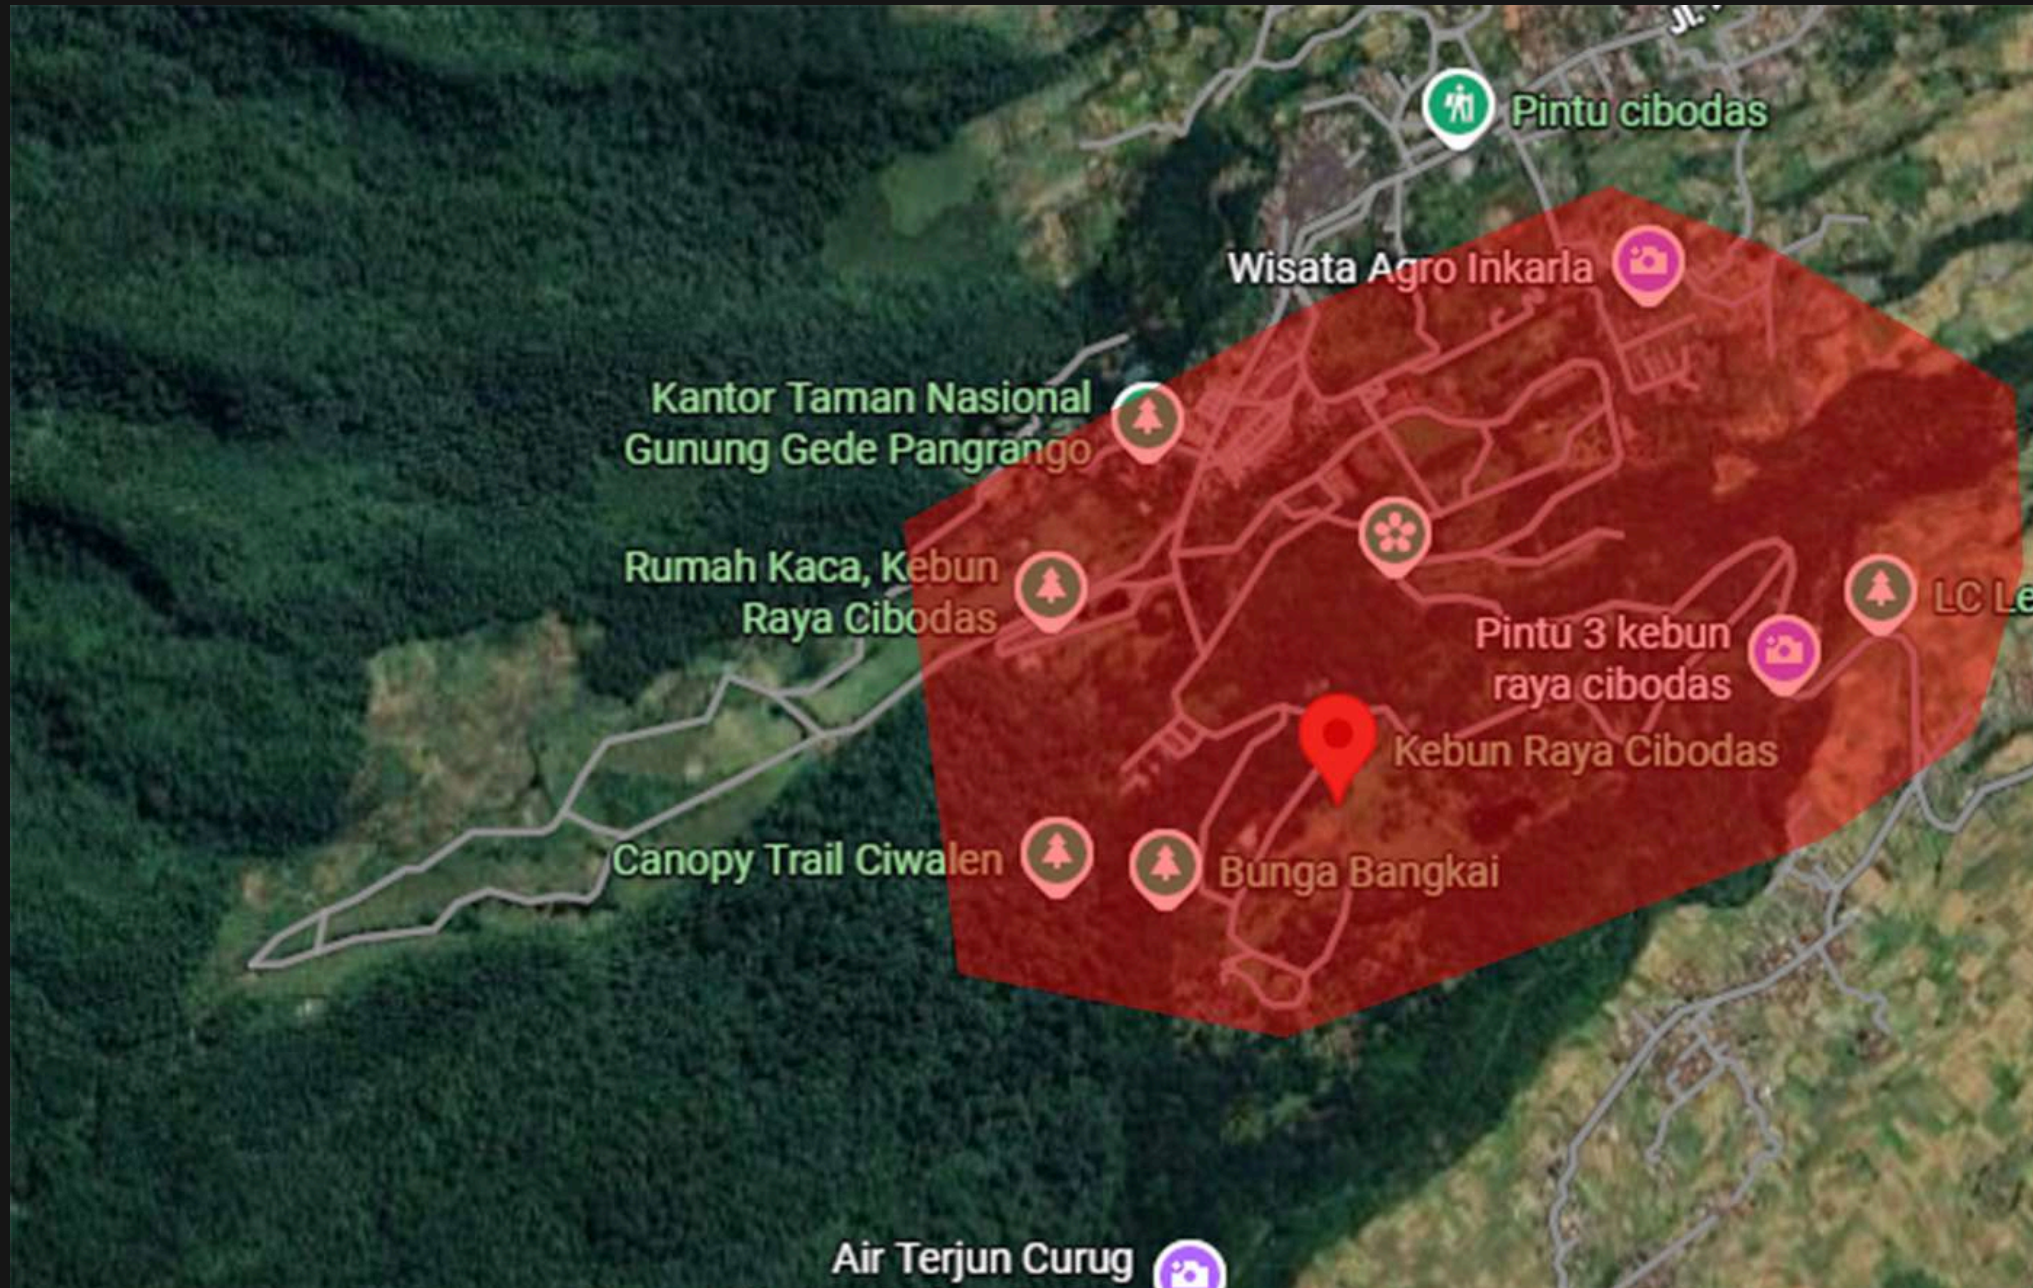

Main non-residential facilities (schools, mosques, etc.): Area out of bounds (520) due to walls (515)/fences (518) that cannot be crossed.

Embargo Area

The embargo area may not be visited by any prospective athlete, coach, official, team, or other party whose knowledge of the terrain and competition arena could influence the competition results.

The embargo area may be visited only with clear information and permission from the organizing committee.

Competition Classes

Class	Description
M21E - WRE	All ages
W21E - WRE	All ages
M20	Under 21 (born in 2006 or later)
W20	Under 21 (born in 2006 or later)
M21N (Novice)	For novice participants
W21N (Novice)	For novice participants
NOTE:	WRE participants must have an IOF ID. Registration for an IOF ID is through IOF Eventor. All registration processes are conducted on the MUBLOC website. M21E and W21E classes are also eligible to take part in the Asian Orienteering Cup 2026 for both races.

Transportation and Accommodation

Budi Luhur University, the venue for MUBLOC VI 2026, is relatively easy for participants to access, both locally and from outside the area. It can be reached by various modes of transport, such as trains, intercity buses, private vehicles, and online transportation services (Grab, Gojek, and online taxis). Good road access and supporting transportation make it easier for participants to travel to the competition arena, activity center, and accommodation locations around the venue.

Travel to Cibodas Botanical Garden by car may be challenging because of frequent congestion and one-way traffic arrangements, sometimes announced at short notice, on the only main road between Ciawi and Puncak, especially on weekends. Participants traveling by car should pay attention to announcements from the local police.

We provide bus transportation to Cibodas Botanical Garden and back to Budi Luhur University. The bus has a capacity of only 38 seats.

Bus Schedule

Day, date: Friday, 16 October 2026

Time: 04:00 PM WIB

Day, date: Saturday, 17 October 2026

Time: 02:00 PM WIB

Note: To secure a seat, registration will open on the MUBLOC website. Seats are allocated to the first 38 participants.
